Sin City COLLECTION

THE NEW PULP RIOT PAINT IS BETTER THAN EVER

INTRODUCING OUR NEWEST SEMI COLLECTION

The Sin City Collection features 5 new shades created in collaboration with Pulp Riot Educator & NAHA winner SaraJane Maples. The new shades are the first in our NEW semi base that feature Anti-Overworking Technology, and now with vibrancy and longevity up to 50 washes!

COLLECTION INSPIRATION

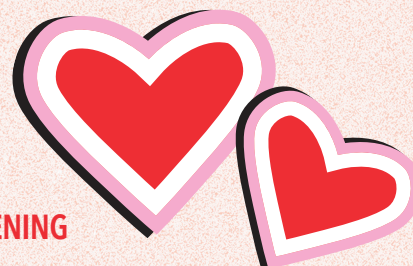

Pulp Riot is back with yet another unique & ownable collection that's inspired by the iconic "Sin City" in Las Vegas, NV & the unconventional weddings that take place there. Atypical, a little crazy, colorful and some might say where "unpolished meets glam".

NEW BASE, WHO'S THIS?

Say "I do" to the new Pulp Riot – there's nothing semi about this semi! Why you'll love our new vivid formula:

- ♥ NO OVERWORKING: **ANTI-OVERWORKING TECHNOLOGY**
- ♥ LASTS LONGER: **NOW UP TO 50 WASHES****
- ♥ INCREASES HYDRATION: **2X MORE***
- ♥ MAKES HAIR STRONGER: **3X MORE STRENGTH* AFTER PRE-LIGHTENING**
- ♥ 3X LESS BREAKAGE* **AFTER USE**
- ♥ IMPROVED SATURATION: **BETTER APPLICATION FOR EFFICIENT PRODUCT USAGE**

*vs. non-conditioning shampoo, ** vs. previous formula

KEEP AN EYE OUT FOR YOUR FAVORITE SHADES FEATURING THE NEW BASE IN 2025!

WHAT'S OVERWORKING?

When semi colors are worked into the hair, they can often turn white, requiring additional product to be applied to ensure proper saturation of the hair fiber. Pulp Riot's new formula base is "anti-overworking," meaning as it's worked into the strands it will not turn white. Because of its optimized texture, application is efficient, and less product is required for re-application from overworking.

NEW SHADES & HOW TO USE THEM: YOU ARE THE ARTIST, PULP RIOT IS THE PAINT. Below are some helpful tips to customize the new shades. **MIX AND MATCH:** Pulp Riot Semi-Permanent colors in both the current and new base can all be mixed with each other to create custom colors. Shade performance will be as you expect.
