Understanding Tonal Control

Application & Timing

- Mixing Ratio:** 1:1 Tonal Control + 10 Volume (3%) Matrix Cream Developer
- Application:** Clean dry or damp hair.
- Processing Time:** 20 minutes at room temperature.
- Rinsing + Removal:** Rinse hair well after the processing time.
- Post Color Care:** Keep Me Vivid Haircare or a custom toning regimen (So Silver, Brass Off, and Dark Envy) based on your client's needs.
- Overly Porous Hair:** On overly porous hair, lightly mist Instacure on the mids + ends of the hair before blending through Tonal Control.
