SILVER STRONG SERVICES

EMPOWER YOUR CLIENTS WITH PROVEN TECHNIQUES

「ENHANCE」

CHARCOAL CHIC

BEST FOR: Clients with over 25% partial gray seeking to enhance their natural color. Create multi-dimensional looks that celebrate grays with highlights and lowlights.

「NEUTRALIZE」

MOONLIGHT WHITE

BEST FOR: Clients with partial to full gray hair looking to neutralize yellow undertones, add intense shine and boost gray hair manageability.

「TRANSFORM」

SILVER EMPOWERED

BEST FOR: Clients with gray or virgin hair going intentionally silver blonde. This technique, co-created with Redken Brand Ambassador, Adrienne Dara, helps create blended balanced tones, while conditioning hair for a dramatic silver transformation.

1.3 oz. (40ml) **Shades EQ** Processing Solution

CHARCOAL CHIC

ENHANCE FOR ULTIMATE CUSTOMIZATION

STARTING LEVEL: Natural Level 7 - 25-50% Gray

SECTIONING

+ STEP 1

Create a horseshoe shaped section that starts at the corner of the eye and extends to the crown, ending at the opposite corner of the eye.

APPLICATION

+ STEP 1

Starting above the corner of the right eye, take a ¼" (0.5cm) diagonal back section and place on a foil. Apply **Highlight Formula** and saturate. Fold and secure the foil. Work through the horseshoe section towards the crown and complete the top section.

+ STEP 2

Now move to the back section the length, take a ¼" (0.5cm) diagonal back section and place on a foil. Apply **Highlight Formula** and saturate. Fold and secure the foil. Work through pivoting until foil position finishes at horizontal at the crown. Repeat on opposite side.

+ STEP 3

Process at room temperature (do not use heat) until pale yellow, not to exceed 50 minutes. Rinse and shampoo with **Acidic Bonding Concentrate**, then treat with **Acidic Concentrates**. Dry hair.

+ STEP 4

On dry hair, use a global application to apply **Gloss Formula**.

+ STEP 5

Process for 20 minutes at room temperature, then rinse, shampoo, and condition with **Acidic Bonding Concentrate**. **Dry and style.**

MOONLIGHT WHITE

NEUTRALIZE & CONDITION IN ONE STEP

STARTING LEVEL: Natural Level 100% Gray

1 oz. (30ml) **Shades EQ Processing Solution**

MOONLIGHT WHITE

NEUTRALIZE & CONDITION IN ONE STEP

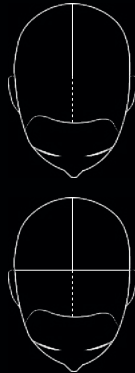

STARTING LEVEL: Natural Level 100% Gray

SECTIONING

+ STEP 1

Separate the front from the back with a vertical parting from the top of the head to the top of the ear. Repeat on the opposite side. Divide the back equally with a vertical parting from the top of the head to the center of the nape, and from the top of the head to the front hairline.

APPLICATION

+ STEP 1

Starting in the back corner of the nape, drop down a 1" (2.5 cm) diagonal back slice section and apply **Gloss Formula 1**.

+ STEP 2

Then drop a down a 1" (2.5 cm) diagonal forward section and apply **Gloss Formula 2**.

+ STEP 3

Continue repeating this process of diagonal back then diagonal forward sections alternating **Gloss Formula 1 & 2** then introducing **Gloss Formula 3** as you approach the crown.

HOT TIP: Change the thickness of the sections to enhance or diminish contrast.

+ STEP 4

Once the back section is complete move to the front. Starting at the ear take a diagonal forward section and apply **Gloss Formula 3**, now take a diagonal back section and apply **Gloss Formula 4**.

+ STEP 5

Continue alternating diagonal slices and **Gloss Formulas 3 & 4** ensuring you finish at the top section with the lightest formula.

+ STEP 6

Repeat on opposite side.

+ STEP 7

Process for 20 minutes Then rinse, shampoo and condition with **Acidic Bonding Concentrate**. Dry and style hair.

STYLIST SPOTLIGHT

THE ULTIMATE SILVER BLONDE
TRANSFORMATION

ADRIENNE DARA

REDKEN GLOBAL
BRAND AMBASSADOR
@adriennedara

“The inspiration behind my client’s look for Silver Strong was to showcase the power of the T series and how it can create a modern blonde with the essence of a smokey undertone. The T series is multi-functional, whether you are adding it to a formula to make it ultra-cool, or using it as the main component to create a light metallic deposit. I wanted my client to have the ease of a lived-in look along with a progressive fade that she will love all the variations of. This is why I opted for the T series to create a strong cool deposit. My client left the chair feeling ultra-blonde - and because I cancelled so much unwanted warmth, she does not have to worry about the color becoming brassy after the first few washes. This color will give her longevity and help maintain her hair health,

TRANSFORM & CONDITION FOR A BOLD STATEMENT

STARTING LEVEL: Natural Level 3

SECTIONING

+ STEP 1

Create a horseshoe shaped section that starts at the corner of the eye and extends to the crown, ending at the opposite corner of the eye.

+ STEP 2

Separate the front from the back with a vertical parting from the horseshoe parting to the top of the ear. Repeat on the opposite side.

+ STEP 3

Divide the back equally with a vertical parting from the horseshoe parting to the center of the nape. Secure both sides.

+ STEP 2

Starting in the front of the ear, take a ¼" (0.5cm) diagonal back section with a regular stitch and place on a foil. Apply **Highlight Formula 2** and saturate. Fold and secure the foil. Continue to drop down repeating this process. Complete section, then repeat on opposite side.

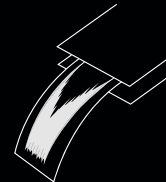

+ STEP 3

Starting above the corner of the left eye, take a ¼" (0.5cm) diagonal back section and place on a foil. Apply **Highlight Formula 2** and saturate. Fold and secure the foil. Work through the horseshoe section towards the crown and complete the top section.

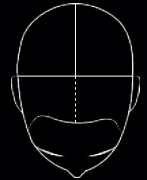

+ STEP 4

Starting in front of the ear area, take a few sections of hair not placed in foils, and apply **Highlight formula 2** using a Balayage Technique. Continue to take random sections and apply Balayage until desired amount of lightness is achieved.

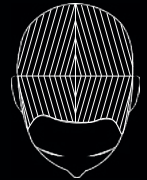

+ STEP 6

Separate the front from the back with a vertical parting from the top of the head to the top of the ear. Repeat on the opposite side. Divide the back equally with a vertical parting from the top of the head to the center of the nape, and from the top of the head to the front hairline.

+ STEP 7

On dry hair, use a global application to apply **Gloss Formula 1** to all zone 1.

+ STEP 8

Once complete, apply **Gloss Formula 2** to zone 2 & 3.

+ STEP 9

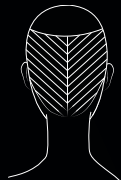

Process for 20 minutes at room temperature, then rinse, shampoo, and condition with **Acidic Bonding Concentrate**. Dry and style.

APPLICATION

+ STEP 1

Starting in the back corner, take a ¼" (0.5cm) diagonal back section with a micro stitch, and place on a foil. Apply **Highlight Formula 1** and saturate. Fold and secure the foil. Continue to drop down sections repeating this process. Complete back side section, then repeat on opposite side.

+ STEP 5

Process at room temperature (do not use heat) until pale yellow, not to exceed 50 minutes. Rinse and shampoo with **Acidic Bonding Concentrate**, then treat with **Acidic Concentrates**. Dry hair.

THE KEY TO SILVER SUCCESS

Since T includes blue, add violet or a hint of red into your formula to keep your result from looking green/flat.

Clients with a darker base are hardest to convert to gray-blending as their previous color contains too much warmth. Use GN in combination with T or P for added neutralizing power.

04ABn can look hollow on higher levels. When using this as a lowlight, add 06NB to help fill in what's missing in the hair.

GEORGE GARCIA

REDKEN GLOBAL
BRAND AMBASSADOR
@georgegarciaarden

Remember Violet contains red, so adding V will warm your formula.

P is the N of toning - it works as a perfect base to mix with other colors for complete customization of your final look.

When formulating for shades like silver or gray, it is helpful to pre-tone after lifting to neutralize the canvas before applying the final gloss. While this does add an extra step, it is helpful in achieving predictable hair color results.

HOT TIPS & TRICKS YOU NEED

SILVER STRONG SHADE FAMILIES

T

TITANIUM FAMILY

The must-have family for all gray and silver looks. Use alone for gray-blending lowlights or cancelling out stubborn orange tones when transitioning your client with highlights.

WHAT TO EXPECT

SHADES [EQ] SILVER STRONG

T

TITANIUM

When toning with **T (Titanium)** family shades, **expect a cool finish**. The **blue tone in this family is dominant** and with the **black to gray background** you can achieve **dimensional steel** and **silvery tones**.

GN

GREEN NATURAL

When toning with **GN (Green Natural)** family shades, **expect to see a mattified result**. They are also great when wanting to **mute/flatten a tone** as it **neutralizes red/orange tones**.

P

PEARL

When toning with **P (Pearl)** family shades, **expect the softest tonal deposit** of any of the Silver Strong shades. P shades are made of **blue and violet tones** to **balance the black to gray background**.

ABn

ASH BROWN

When toning with **ABn (Ash Brown)** family shades, **expect a heavier result and cooler finish**.

FOR OVER 60 YEARS, REDKEN HAS BEEN A LEADER IN THE PROFESSIONAL SALON INDUSTRY, EMPOWERING PROFESSIONALS AND CONSUMERS TO ACHIEVE HEALTHY TRANSFORMATIONS WITH CONFIDENCE. FREQUENTLY ASKED QUESTIONS

WHAT IS SHADES EQ SILVER STRONG?

Introducing our ultimate gray collection. Whether it's a natural progression towards gray or a silver transformation, this shade collection is tailored for the modern client looking to enhance, embrace, and celebrate their grays. Unleash endless gray to silver possibilities as you explore our latest techniques and expert formulations with the power of Shades EQ.

WHAT ARE THE SHADES?

The shades come from 4 existing Shades EQ families: Titanium, Green Natural, Pearl and Ash Brown.

THE SHADES ARE:

Gloss: 08T, 07T, 07P, 08GN, 06GN & 04ABn

Bonder Inside: 010T, 09T, 010P & 09P

WHAT IS BONDER INSIDE TECHNOLOGY?

Shades EQ Bonder Inside helps repair weak bonds during a color service.

1. **TONE + REPAIR IN ONE STEP** – Built-in bonding helps strengthen weak bonds & protect more than the leading bonding additive for a stronger hair fiber*.
2. **FORMULATED WITH TRIPLE ACID COMPLEX** – Citric Acid & Taurine (bonding actives) and Erythorbic Acid (antioxidant). The Acidic pH of Shades EQ + bonding actives help reduce residual alkalinity that occurs during an alkaline lightening service and helps repair weak bonds.

WHAT MAKES SHADES EQ BONDER INSIDE AND SHADES EQ GLOSS NECESSARY FOR GRAY HAIR?

As hair grays it can often become unruly or start to take on yellow tones from external aggressors. Shades EQ provides intense conditioning for increased manageability while simultaneously neutralizing yellow tones. It's a win-win!

WHO ARE THEY FOR?

WHEN WOULD YOU USE THESE SHADES?

Shades EQ Silver Strong shades can be used in multiple ways. They can be used on natural hair to minimize warmth, to neutralize, and/or to enhance natural silver tones. They can also be used for overall silver transformations in highlight and/or double process services

WHAT LEVEL DO YOU USE THESE ON?

These shades are designed to perform at their best on natural, previously color-treated, or pre-lightened hair that is the same level or lighter than the shade being used.
